Dutch

AVB: the right choice when going Dutch

Many translation companies offer Dutch translations, but not all of them do it well in our view. Why is AVB the right choice when you're looking to 'go Dutch'? Read on for the primary reasons to choose AVB as your SLV for Dutch.

Solid background

We are no new kid on the block. We are no generation Y project by internet-savvy hipsters using technology as the foundation of a translation company. What we are, is a translation company that has been around for 42 years, and we have built up our reputation through years of providing excellent quality and top-notch service to thousands of customers. And we have been ISO-17100 certified since early 2016 – in other words, our striving for excellence is confirmed not just by the satisfaction of our clients but by purely objective standards as well.

Dedicated scalable team

Our experienced, well-trained team of in-house project managers and localizers combine their abilities with those of a wealth of external suppliers to produce the top-quality Dutch translations that you require. All external suppliers are carefully vetted and their performance is constantly monitored to keep them performing at the highest level every time, all of the time. And, having built up a broad and extensive base of specialized freelancers for all sorts of topics, we can scale up very easily.

The full potential of our in-house team becomes quickly apparent to all who choose to work with them. In your communication with our friendly and professional project managers, you will soon note the expertise with which they do their work, and how well they understand your needs. Customer dedication is their mission, and they will bend over backwards to provide you with exactly the service that you want and need. Give our team a try – we guarantee that you will not be disappointed.

Broad skills and expertise

Over the years, our company and our people have gathered and mastered a wide range of skills to ensure that we can offer you the absolute best service possible. Handling the many file formats involved in localization has become second nature for our PMs and language technology staff, and we comfortably and expertly make use of and often own the diverse translation tools that see so much use today, including (but certainly not limited to!):

- SDL Trados Studio
- SDL WorldServer
- MemoQ Translator Pro
- Memsource
- Wordfast Pro
- Microsoft LEAF and other MS localization tools

Range of services

Naturally, we provide normal translations, as you would expect an SLV to do. But that is far from the full extent of our services: we also offer multiple added-value services such as MT post-editing (light & full), terminology mining and management, linguistic QA, reviewing and editing, transcreation, SEO localization, voice-overs, and many more. Furthermore, our long history as a translation company has allowed us to build up a large database of highly reliable language specialists with a diverse range of areas of expertise: legal, finance, life science, IT, marketing and more. "AVB is your one stop shop for projects involving Dutch. Try us out and you'll see why!"

Call + 31 20 645 66 10 or mail slv@avb.nl to get in touch with our team.

AVB Standard Localization Workflow

AVB Dutch SLV rate table

Task	Source language	Target language	Min. rate EUR	Min. rate USD
User assistance (user guides, Help,...) <i>Translation, Edit, Proof (TEP)</i>	English	Dutch	€ .12 p/w*	\$.135 p/w
Software, marketing, specialist materials <i>Translation, Edit, Proof (TEP)</i>	English	Dutch	€ .14 p/w*	\$.16 p/w
Other source languages <i>Translation, Edit, Proof (TEP)</i>	Other	Dutch	€ .13 p/w*	\$.145 p/w
MT post-editing	English	Dutch	€ .06 p/w**	\$.07 p/w
Hourly work (editing, terminology, QA)	any	any	€35 p/h***	\$40 p/h

* Translation rates depend on subject matter, volume, file format/CAT tool involved, and turn-around time.

** MT post-editing rates depend on quality of raw MT output, expected delivery quality and turn-around time.

*** Hourly rates depend on type of work, turnaround times and language combination.
